

TEXAS ASSOCIATION OF SCHOOLS OF ART
PHOTOGRAPHIC PROSESSES SURVEY 20008/09

Chair, TASA Academic Committee

**Gary Q. Frields, Professor of Art, Stephen F. Austin State University,
Nacogdoches, Texas gfrields@sfasu.edu**

The **Texas Association of Schools of Art** Academic Committee survey of member institutions regarding the level at which photo processes (wet lab, digital, alternative) are currently taught. This information should facilitate photography transfer courses between institutions by charting Photo 1 and 2 classes as well as upper level photo courses. Additionally, a part of this survey includes TASA members' speculations as to the future of Photography (digital/wet lab) and future planning in this field of study.
2008/2009

On behalf of the Texas Association Of Schools Of Art President, Cathie Tyler and Board of Directors, I wish to thank all who assisted in forming this photographic curriculum survey. The hope is that this research will assist in program planning as innovations in technology are incorporated into visual arts education.

Gary Frields
